Prabhakar Varma

IIB|ACE Developer

SUMMARY

- Integration Developer with experience of 5.4 years in banking domain.
- Strong programming knowledge in ESQL, Core Java
- Good knowledge of MQSI commands and SQL commands.
- Expertise in different integration products like ACE v11, ACE v12, IIB v9, IIB v10, WMQ v7.5, WMQ v8.0, WMQ v9.2
- Sound knowledge of cloud technologies such as Docker, Kubernetes, OCP, ISTIO ServiceMesh
- Good Analytical and problem-solving skills.
- Strong exposure of Web Services.

SKILL HIGHLIGHTS

IBM App Connect Enterprise v11, v12

IBM Integration Bus v09, v10

Websphere MQ v7.5, v8.0, v9.2

ESQL, JAVA

SOAP, HTTP, REST, Oracle, DB2

RFHUtil, SoapUI, ReadyAPI, WinSCP

Docker, Kubernetes, Open Shift Container Platform(OCP), TFS, Harness, AWS Cloud

Code Coverage, SonarQube, SVN, RTC, GitHub, GitLab, Beyond Compare, Jenkins, Jira, Confluence

PROFESSIONAL EXPERIENCE

IIB|ACE Developer

Sep '22 – Present

Mphasis Pvt Ltd

Pune, Maharashtra, India

Client: Western Union, US

Project Description: Western Union provides a means of moving money from person to person and place to place for people who may not have options in the traditional financial world.

Role Description:

- Understanding the client requirement which is mapped with the JIRA tickets.
- Developed/Enhanced multiple applications based on HTTP, SOAP, MQ, File protocol for client.
- Have created and consumed web service using SOAP Nodes by using WSDL as message models.
- Versioning the code using GitLab.
- Performed multiple POCs for different use cases related to Gitlab. Prepared document & Confluence page which team is following as a process.
- Interacting with client on daily basis to understand the requirement, show/discuss the progress, blockers, etc.
- Performing multiple POCs to automate the IIB application's deployment process via Jenkins over a cloud(CICD work). Used Docker, Kubernetes, OCP, AWS Cloud in POC.
- Involved in peer-review activities.
- Involved in resolving different defects raised at various environment by testers.
- Involved in the migration project from IIBv10 to IBM ACE.

IIB|ACE Developer

Feb '21 – Aug '22

IBM India Pvt Ltd

Pune, Maharashtra, India

Client: Nationwide Building Society, UK

Project Description: Nationwide is the world's largest building society as well as one of the largest savings providers and a top-three provider of mortgages in the UK. It is also a major provider of current accounts, credit cards, ISAs and personal loans.

Role Description:

- Understanding the design document and developing message flows according to the design.
- Developed different applications based on HTTP, SOAP, MQ, File protocol for client.
- Have created and consumed web service using SOAP Nodes by using WSDL as message models.
- Used ESQL for routing and enrichment of incoming message in compute and filter nodes.
- Developed error handling sub-flows to implement the Error handling concepts to handle the failover tasks during the Message transformation.
- Participated in design, walkthrough, code review and defect review activities.
- Created Unit Test Framework for testing the developed applications.
- Increased the performance of the code by using the tools like Code Coverage and SonarQube.
- Versioning the code using RTC and GitHub tools.
- Involved in resolving different defects raised at various environment by testers.
- Performed different POCs for the different modules.
- Experience in using CI/CD pipeline for automated deployment using Jenkins.
- Worked on the migration project from IIBv10 to IBM ACE.

IIB Developer

Dec '18 – Feb '21

C-Edge Technologies Pvt Ltd

Mumbai, Maharashtra, India

Clients: : Karnataka Bank Ltd, Coastal Local Area Bank, Mangalore Co-operative Town Bank Ltd, NABARD banks, etc.

Project Description: This project is based on real-time transactions of NEFT and RTGS. We develop middleware services which mediates between bank CBS and SFMS.

Role Description:

- Analyzing the business scenario and actively collaborate with clients.
- Design, Development and debugging of message flows.
- Created DFDL parser, XML parser, Message Sets for validating the message formats.
- Created local, remote and transmission queues.
- Created Intercommunication setup (creation of sender and receiver channel) with client
- Created Configuration services to connect to CBS through FTP/SFTP.
- Worked on UFM(Universal File Mover) module.
- Worked on error reporting to support team by using email nodes.
- Created and deployed bar files using the toolkit and command line utilities.
- Implemented Security Policies on different queues.
- Configuration management and code versioning through configuration management tool SVN.
- Involved in resolving production issues.
- Worked on the migration projects from IIB v09 to IIB v10.

EDUCATION

MSc(Information Technology)

Jul '19 – Jul '21

Keraleeya Samajam Dombivli's Model College

Mumbai, Maharashtra

Specialization in Artificial Intelligence

Agg: 85.67%

BSc(Information Technology)

Keraleeya Samajam Dombivli's Model College

Agg: 83.45%

Jun '15 – May '18

Mumbai, Maharashtra

TRAINING, CERTIFICATION & ACHIEVEMENT

- Cleared IBM Integration Bus Solution Developer(C9530-001) Certification.
- Attended different trainings in Mphasis, IBM.
- Trained in Python programming.
- Awarded star performer of the month multiple times in IBM.
- Awarded Rising Star Award in IBM.
- Research Paper on Light-Fidelity(Li-Fi).

ADDITIONAL INFORMATION

- 5.4 Years of experience in Banking Domain.
- Strong functionality knowledge of payment systems (NEFT/RTGS).
- Interviewed multiple candidates for middleware roles in Mphasis.
- 1 Year of experience as a development team lead in C-Edge Technologies Pvt Ltd.
