EDUCATION

Bachelors

University Of engineer and Management Kolkata

08/2015 - 05/2019

Kolkata

Post Graduate Diploma

IIIT Bengaluru

02/2021 - 02/2022

Bengaluru (Online)

WORK EXPERIENCE

System Engineer

Tata Consultancy Services

10/2019 - 06/2022

Kolkata

worked on American BFSI project

Achievements/Tasks

- Developed and supported production environments. worked closely with clients to architect and implemented onprem and AWS-based solutions.
- Implemented robust monitoring using Solarwind, logging using splunk, Batch processing using SOS jobscheduler, secure file transfer using goanywhere Tool.
- Automated systems configuration and orchestration using tools like Ansible, enhancing efficiency and consistency
- Contributed to troubleshooting and resolving technical issues to maintain high system availability.

Member Of Technical Staff 1

Vmware by Broadcom

06/2022 - Present

Bengaluru

worked as DevTest role for NSXT Advanced Load balancer

Achievements/Tasks

- Modified, and maintained Product support for baremetal, vmware, Nsxt and cloud platforms ensuring optimal performance, security, and scalability.
- Contributed to the automation of CI/CD pipelines, incorporating application tests, Nic driver tests to streamline the deployment process.
- Implemented comprehensive monitoring and alerting mechanisms to ensure availability and performance of cloud solutions. Reduced the pipeline time by 15% by contributing in testbed deployment using terraform
- Managed multiple environments and facilitated code promotion through effective automation and collaborated closely with development teams to establish containerization solutions using Docker and Kubernetes.
- Demonstrated proficiency in python development through Git version control and leveraged strong troubleshooting skills to address complex technical challenges.

SKILLS

Python

Shell scripting

AWS

Terraform

Jenkins

Kubernetes

Docker

Django

Networking

Data structure and Algorithm

Linux
